

*The Partner of your
company for over 30 years*

**Guide for the
customer**

About us

Alfa Omega was born in 1985 and years later it is which has now become an Italian reference point for **development, production and packaging** of:

- Food supplements
- Probiotics
- Cosmetics
- Medical devices
- Veterinary Products
- Homeopathic Medicines

It is also equipped with a **control laboratory** quality equipped to carry out analysis too third parties on raw materials and finished products.

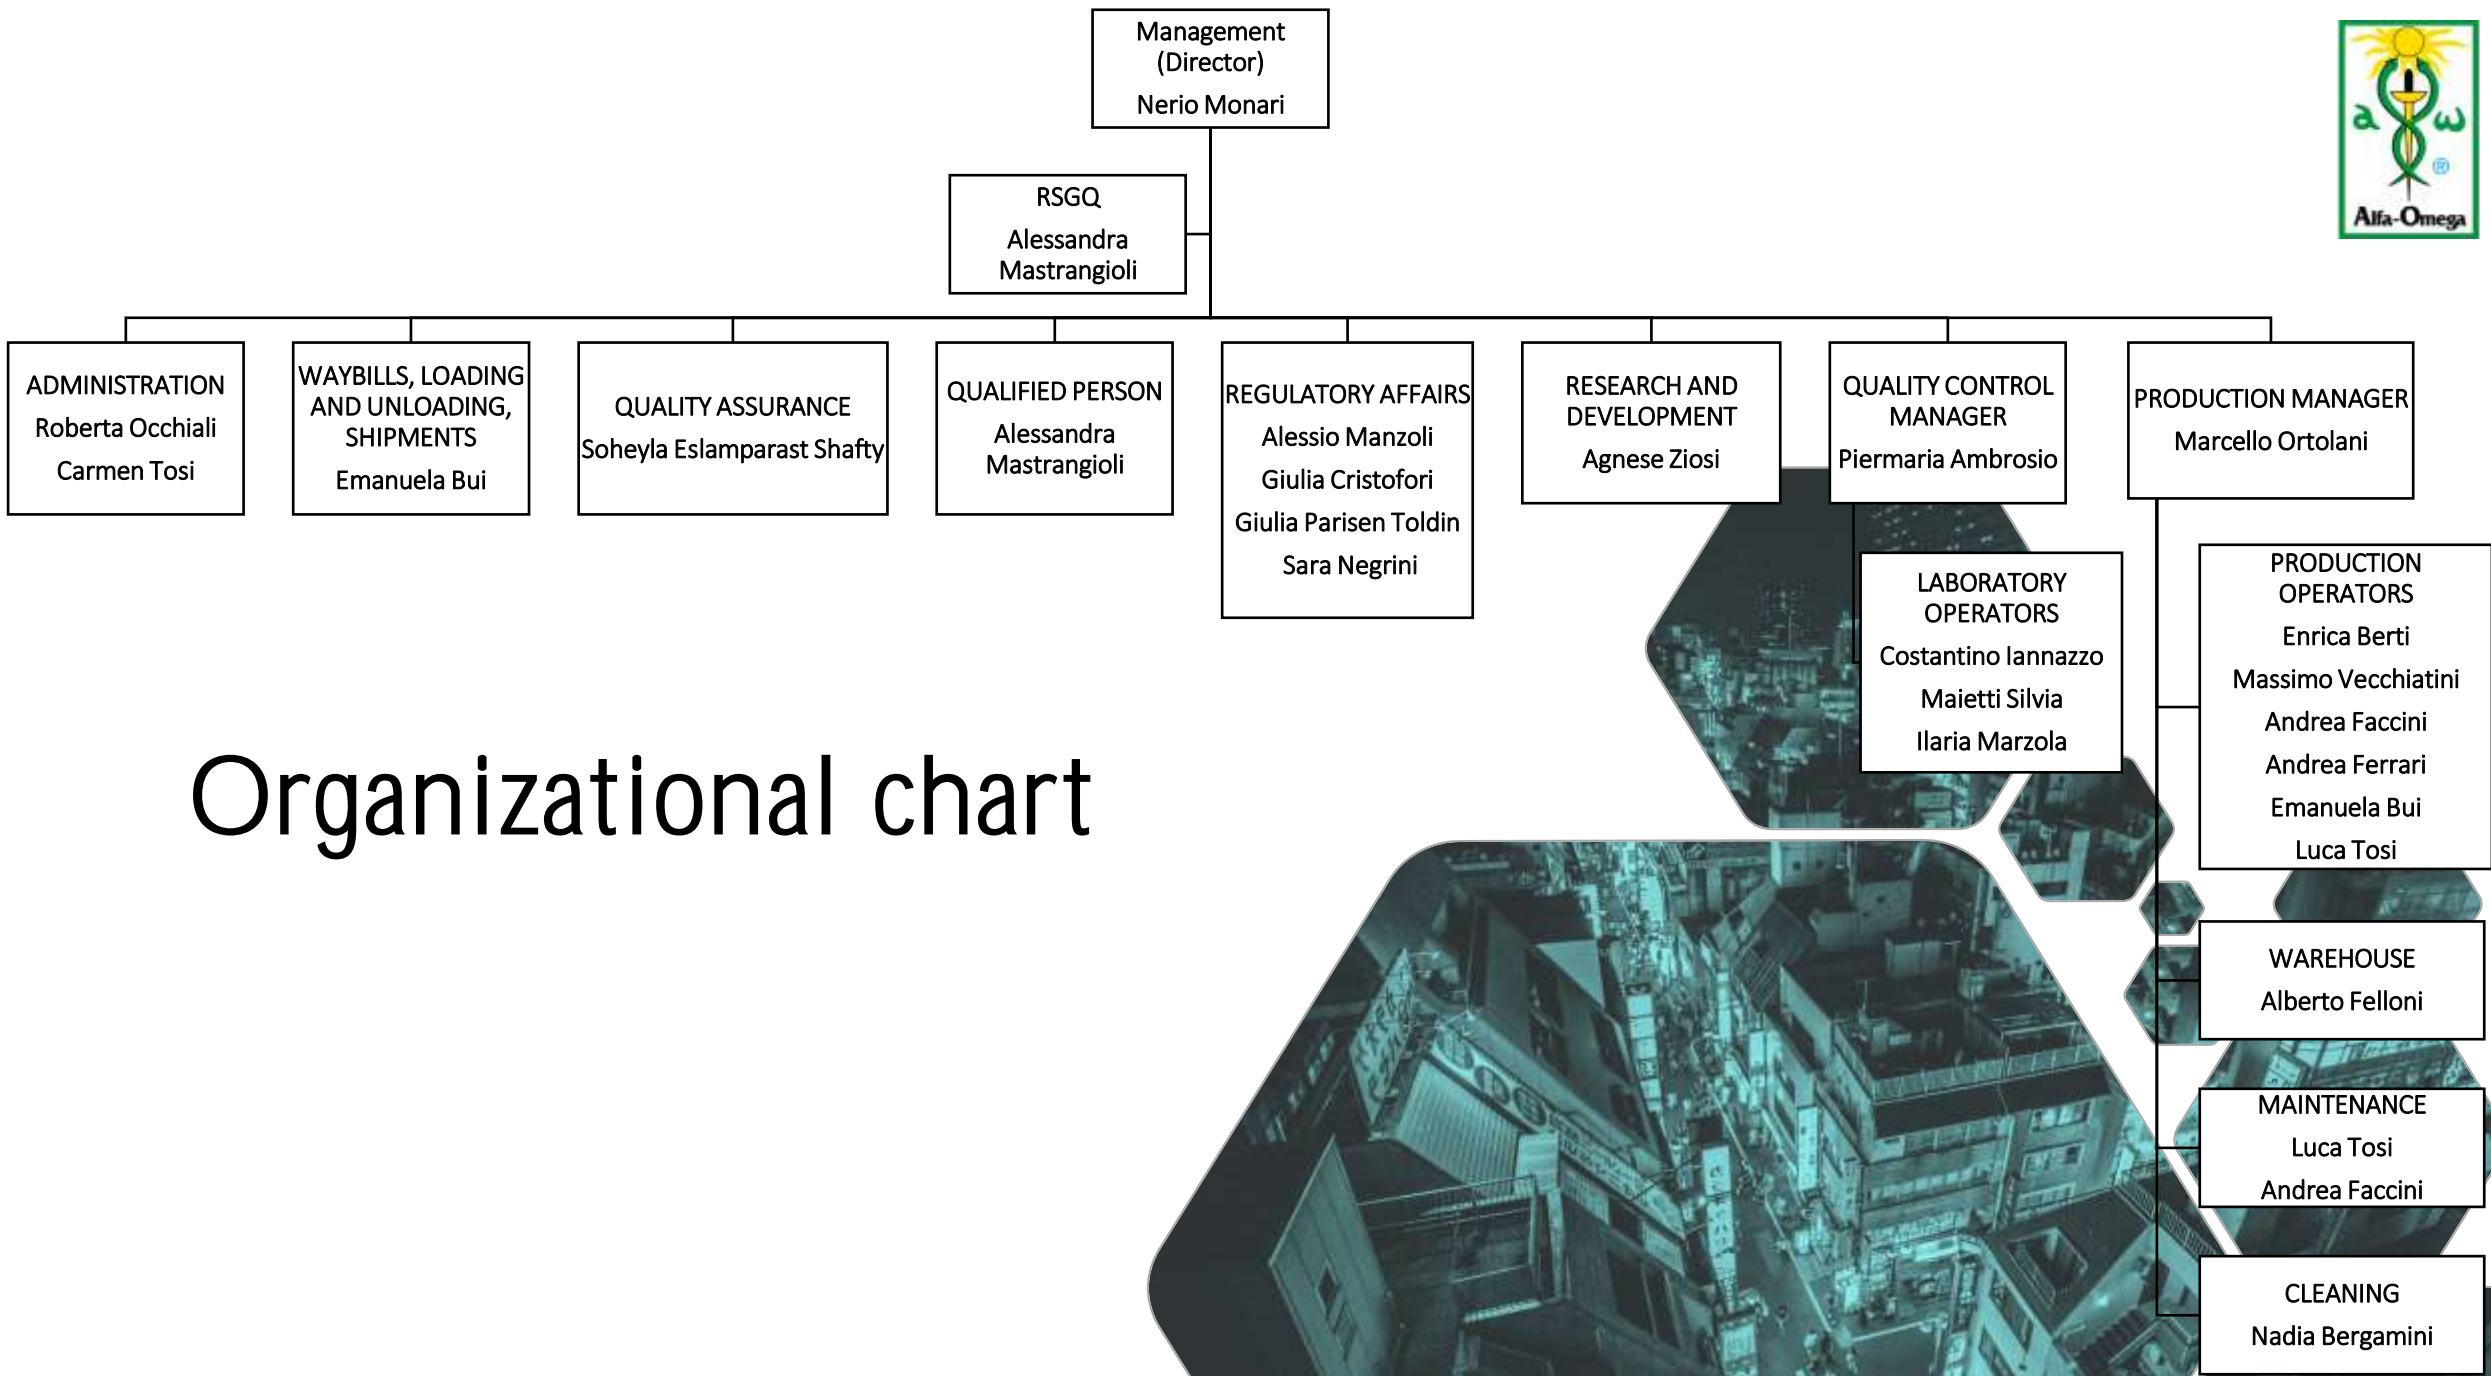

Our keywords

Quality of raw materials and production system, UNI EN ISO 9001:2015, UNI CEI EN ISO 13485:2016 CE 834/07 and GMP certified for the production of medicines for human use. Our commitment to creating quality products is rewarded by the feedback from our customers (98% would recommend Alfa Omega).

Carefree: we take care of the product at 360°: design and development, production, analytical and regulatory activity. Customers, if they wish, can dedicate themselves in complete tranquility to the commercial part only.

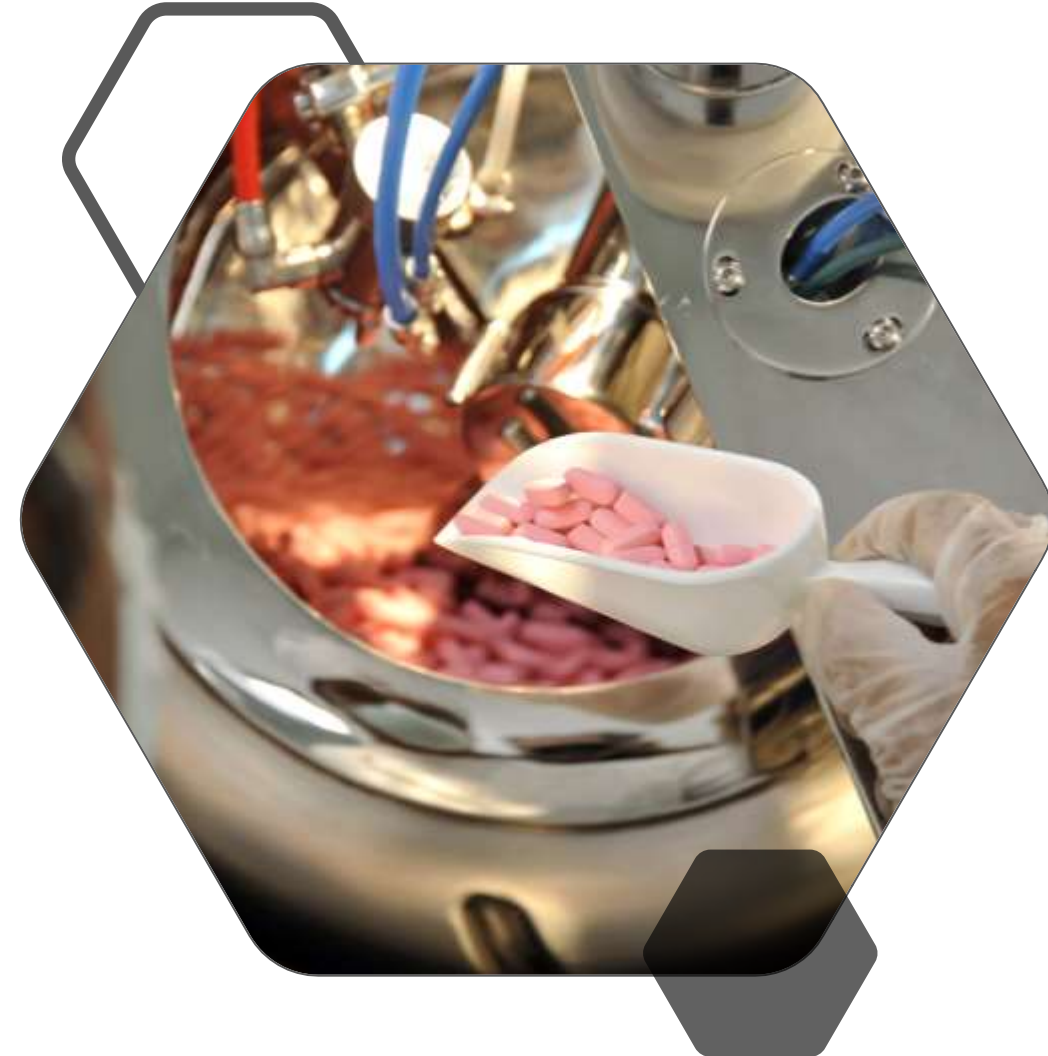

Organizational chart

Food supplements

- Single-layer and multi-layer tablets
- Simple and gastro-resistant tablet coating
- Capsules of animal and vegetable origin and acid resistant
- Single-dose vials with and without measuring cap
- Powders
- Gel
- Oral solutions
- Impregnated globules / granules
- Hydroalcoholic solutions
- Stick pack production of powders, gels and liquids

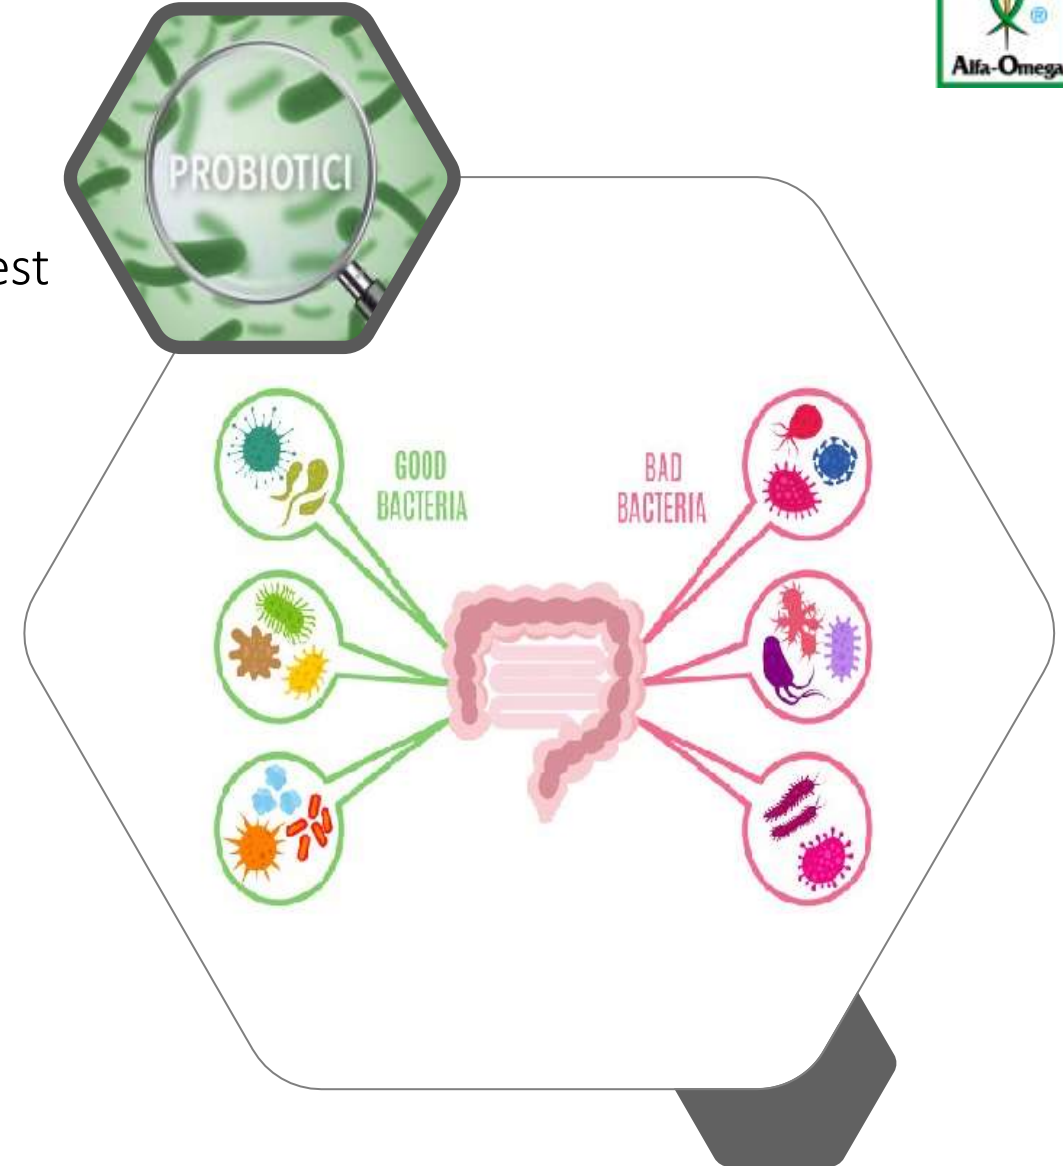

Probiotics

Food supplements based on probiotics are made using the most modern packaging techniques, **STICK PACK**, for which there is an **entire factory dedicated** to guaranteeing the highest standards of safety and efficacy:

- Air treatment with HEPA filters terminal
- Dust collector with dedicated ventilator
- Continuous monitoring of pressure, temperature and relative humidity in all areas
- Standard conditions: $T^{\circ} = 25^{\circ}\text{C} \pm 2$
- Control system consisting of an automation panel

Further packaging:

Capsules of animal, vegetable and acid resistant origin

Cosmetics

- Creams
- Gel
- Lotions
- Liquids for cutaneous use

Medical devices

- Vaginal suppositories
- Aerosol vials
- Creams
- Gel products for cutaneous use
- Oral use gel products
- Nasal sprays
- Injectable vials
- Single-dose vials
- Suppositories

Homeopathic Medicines

- Hydroalcoholic solutions
- Impregnated granules/globules
- Injectable vials
- Single-dose vials
- Homeopathic raw materials: Mother tinctures, glycerin macerates, nosodes, organs, lithotherapy, chemical, immunological, allergens, animals and poisons
- Packaging in blister, tubogranules, tubodoses and pill containers

Packing

- Blister
- Sachets
- Stick Pack > **NEW DEPARTMENT** <
- Bottles / Disposable bottles
- Jar/Pill containers
- Vials
- Single-dose vials
- Tubogranules
- Spray
- Dispenser
- Cream tube
- Tanks

Quality Control Laboratory

Chemical-Physical analysis:

- Gaschromatography e HPLC
 - Pesticides, solvents
 - Pyrrolizidine alkaloids
 - Hydroxyanthracenic derivatives
 - Aflatoxins – Ochratoxins
 - Heavy metals
 - Refractive index
 - TLC chromatography
 - Potentiometric titles
 - Radioactivity
 - Optical activity
 - FT-IR / UV-Visible Spectrometry
 - Measurements of pH
 - Melting point
- Disintegration time
 - Semi-Micro determination of Water
 - Viscosity
 - Primary packaging seal
 - Conductivity
 - Ashes
 - Ethanol content
 - Stability studies (accelerated and long-term)
 - Optical microscopy
 - RedOx potential
 - Free chlorine
 - Free water

Microbiological analysis:

- Total bacterial count, yeasts and molds
- Presence of pathogens
- Titration of probiotics
- Environmental controls
- Viral inactivation
- Bacterial identification

Sterility analysis:

- Sterility control and inspection for injectable vials

Special analysis:

- Gluten free
- Lactose free

Quality Certifications*

Authorization for the production of food supplements for human use

Authorization issued by AIFA for the production of Homeopathic Medicines

Biological Certification CE 834/07

GMP Certificate

Coronavirus Emergency

Given the health emergency related to COVID-19 which unfortunately is affecting all of Italy, we would like to reassure you about the situation of our company: **the activity is continuing regularly, and we guarantee the usual level of service.**

The company has issued **precautionary rules to all staff that regulate good practices** to be respected to avoid the spread of the infection.

Staying close to customers and continuing to serve them safely in this difficult situation is our top priority. We thank you for your precious collaboration, with the wish and hope that this difficult moment will be resolved in a short time.
